WAISMAN CENTER
UNIVERSITY OF WISCONSIN-MADISON

The Wisconsin MCH LEND Program is funded by the Department of Health and Human Services, Health Resources and Services Administration, Maternal and Child Health Bureau: CFDA 93.110

“WI LEND gave me a broader understanding of interdisciplinary practice and a team approach to patient care.”

– Wisconsin LEND trainee

The goal of the Wisconsin LEND Program is to provide interdisciplinary and disciplinary leadership training to improve systems of care that promote the prevention of disabilities and assure access to family-centered, community-based services for children with neurodevelopmental and related disabilities and their families.

Trainees gain competencies in interdisciplinary clinical care, family needs and preferences, and the public health system. The WI LEND Program is designed to advance leadership skills. WI LEND trainees participate in an academic year program (minimum of 300 hours) that includes seminars and discussions, interdisciplinary team work, participation in a clinic or community-based practicum, research project, family mentor experience, leadership development workshops, and mentoring. Stipends are available to eligible trainees.

How to Apply for 2022-2023 Academic Year:
